FIRST, BEST & ALWAYS

NORFINS, NORFINS EVERYWHERE...

KEY CHAINS Norfin Key-Pers (#501) will protect your keys without fail. They have an added feature as well; if you ever forget a key they are small enough to run under most doors and open the lock from the inside. (1 1/2" tall).

CAR TROLLS RoadRacers (#530) are the perfect accessory for every car. They come with a suction cup on a long loop of cord and love to simply hang around. Great on the rear view mirror or stuck on any window. Be advised to keep them in the front of the car; they're terrible back seat drivers! (3 1/2" tall).

PENCIL TOPPERS Our Pen Trolls (#500) are A+ students at Norfin U. The shortest Norfins are 1 1/2" tall, but when perched on top of pencils or pens they really get the point across...profits! Packed 50 in a POP display box with header.

PINS PinTroll (#506) Now everyone can take a Norfin along wherever they go. These tiny characters fit comfortably on any outfit. A must for the fashion conscious troll lover. (1 1/2" tall).

MAGNETS Mag-Norf Magnets (#550) look great on a filing cabinet, message board or refrigerator. Be careful though, these little rascals will eat you out of house and home. (1 1/2" tall).

NECKLACE Norfin on a String (#504) Subtle strands of dayglow color string are delicately knotted to carry the littles Norfin troll. (1 1/2" tall).

COSTUME PARTY

What a celebration! It's the day of the annual costume party and "The Gang" is here in force. Who will win the prize for best outfit? The air is filled with excitement as they gather in front of the judge for his decision. (L to R) Little Bride (#5401) and Little Groom (#5402) are beautiful to behold. Prom Queen (#5403) and her date Hippy (#5404) had a little mix up. They agreed to dress up in 1960's outfits but didn't coordinate very well. Student Nurse (#5405) and Intern (#5406) are both smooth operators and expect to finish in first place. Tennis Pro (#5407) and Mini Clown (#5408) make an odd couple. They danced all night and had a great time. Baby (#5409) who is 25 but never really grew up, has his eye on Ballerina (#5400). They've only just met but he's sure it's the start of a wonderful relationship.

RETURN OF THE TROLLS

Gjol Denmark, a small fishing village nestled on the shore of the Lim Fjord is the birth place of the Norfin trolls. On quiet summer evenings when the moon is bright, you can often catch a glimpse of the Norfins collecting Lingonberries, and if you listen very carefully, you can hear them giggle as they play in the tall grass.

The popularity of the trolls, as collectibles and good luck charms in the United States, dates back to the early 1960's. Thomas Dam, a Danish artist and wood carver, produced the first trolls and has continued designing and manufacturing them to this day. The trolls were an overnight sensation back then, and the second generation, the Norfins, are repeating the phenomena in the 1990's. Young or old, male or female, no one can resist their charm—they're bigger, bushier and more loveable than ever.

Legend has it that Norfin trolls bring good luck. Rumor has it that they have magical powers. Legend and rumor aside, it is a fact that Norfins make people smile. Made of PVC and hand-finished, every one of them has a unique personality and reflects a different mood.

Discover the story each has to tell, it's all in the eyes!
